

EMERGYS/4 Medical Devices

EMERGYS/4 Medical Devices delivers the power of SAP S/4HANA with pre-configured functionality, tailored to Medical Devices.

With SAP best practices as a base, and Emergys Industry Accelerators evolved over 15 years of industry experience EMERGYS/4 delivers the ultimate business tool for Mid-Market in the Medical Devices Industry: **Comprehensive Enterprise Experience, Analytics, Full Integration and Cloud Enablement.**

EMERGYS/4® | **SAP**® Qualified
MEDICAL DEVICES Partner-Packaged Solution

Emergys proven and predictable delivery methodology will ensure rapid ROI, taking our customers to a Digital Footprint at the pace of your transformation objectives – from as little as 12 weeks for a small project to 40 weeks for a very large scope.

SIMPLER

EMERGYS/4 means simpler business process, simpler IT landscape and smaller data footprint.

INDUSTRY KNOWLEDGE

- Best practices for:**
- Manufacturing
 - Food Manufacturing
 - Wholesale & Distribution
 - High-Tech
 - Medical Devices
 - Aerospace & Defense
 - Automotive
 - Professional Services
 - Travel & Transportation

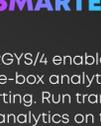

FASTER

In-Memory HANA platform allows 100x to 1,000x faster response times. Better overall performance.

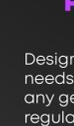

INTEGRATED

EMERGYS/4 Seamlessly ties together business processes. Sales, Purchasing, Manufacturing, Warehouse Management, Finance, etc. all operate as one from day one.

SMARTER

EMERGYS/4 enables out-of-the-box analytics and reporting. Run transactions and analytics on the same system. Single source of truth serves up-to-date consistent data in real-time.

Driving Business Innovation Together

CLOUD POWERED

Designed to support the needs in your industry, in any geography, for any regulatory requirement, with SAP responsible for the holistic service level agreement (SLA), cloud operations, and technical support.

TODAY'S MEDICAL DEVICES TRENDS

- Accelerate new business models and deliver the best customer experience by connecting the front end to back end.
- Realize a significant reduction in cycle times and build a more adaptable supply chain, unleashing significant savings and responsiveness.
- Engage the workforce with better user experience and by automating high-volume repetitive tasks

BUSINESS MODEL INNOVATION

- Respond to disruption
- Create new customer experiences
- Connect ecosystems

BUSINESS PROCESS OPTIMIZATION

- Remove process issues
- Enhance the user experience
- Enable autonomous, no-touch ERP

SYSTEM LANDSCAPE SIMPLIFICATION

- Reduce IT costs
- Increase agility
- Reduce IT risk

CHALLENGES FACING MEDICAL DEVICES

The complexity around the medical device industry relies mainly on organizations obligation to fulfill compliance with FDA and CAPA (Corrective and preventative actions) requirements and regulations, often while still running manual processes that end up being laborious and time-consuming, finding key compliance items difficult to prove (Product Tracking & Traceability).

At the same time, medical devices have evolved into connected devices that create a whole new frontier of challenges to overcome.

Master Data Administration

Meet all the requirements of medical device laws and regulations

Cost Control

With SAP S/4HANA you have real-time overview of your costs. Identify potential savings with Powerful Insights

Traceability

All your data are consistently traceable in the system, from the change history in the product lifecycle to the sensor data from your production

Automation

With SAP S/4HANA, you drive the automation of your production for better capacity utilization

Internationality

The ability to map country-specific requirements directly in your SAP S/4HANA system and make sure your supply chain works smoothly

Business Benefits

DRIVE CUSTOMER EXPERIENCE

- Accelerate creation of new business models
- Enter new markets and industries
- Quickly realize synergies from mergers and acquisitions
- Achieve greater speed and agility
- Manage risk and ensure compliance

DELIVER STEP CHANGE IN PRODUCTIVITY

- 5%–10% revenue growth
- 10%–20% increase in customer satisfaction
- 10%–30% increase in on-time delivery
- 10%–12% reduction in days in inventory
- 10%–15% reduction in revenue loss due to stockouts
- 10%–12% reduction in total logistics cost
- Reduction in order-fulfillment lead time
- Reduction in process complexity

ENGAGE THE WORKFORCE

- Better employee experience through personalized dashboards, natural language interfaces, and automated workflows
- Higher productivity with a new, role-based user experience on all devices
- Role-driven, user-centric processes and self-service business intelligence
- Actionable insights on unified, real-time data and processes, with built-in system suggestions for decision support
