

# WORKING WITH SERVICENOW ASSURE PARTNER

## What can a ServiceNow Assure Partner do for you?

A ServiceNow assure partner can assure a seamless implementation with guided, effortless and the best in-class talent. ServiceNow assure partner blends the expertise of ServiceNow Platform with leading practices to help you create exceptional digital experiences - faster and with less risk.

**‘With a ServiceNow assure partner, all the right pieces coming together in perfect harmony’**

### People

ServiceNow architects, technical experts, and business process consultants collaborate with your Technical team and CIO to speed time to value and market.

### Seamless Orchestration

Whether it's IT modernization, implementing new productivity tools, or rethinking customer support, successful projects start with the right collaboration.

### Process

Comprehensive reviews to ensure optimal health of your project.

### Practice

Proven methodology tailored to meet your desired outcome.

**ServiceNow assure partner will lead the engagement, and the ServiceNow team will provide prescriptive guidance and support at key points throughout the project. The following approach is utilized by the team :**

#### Planning

Optimize product usage and deliver targeted value

#### Architecture

Align platform, integration, and data architecture for long-term success

#### Design

Mitigate customizations for better upgradability, maintainability, & scalability

#### Sprint Scan

Ensure teams are following best practices before moving to production

**Engage with us or services account executive to see if our assure program is the right fit for your project**
