EMERGYS

3 ARCHITECTURE SHIFTS DEFINING AI-NATIVE ENTERPRISES

The future of AI starts with the right architecture.

60% *of organizations will manage multi-agent AI experiences by 2027*

SHIFT 1 - Batch Pipelines → Agentic Workflows

CHALLENGE
Scheduled workflows slow response times

MODERN APPROACH
Agents retrieve, reason & act in real time

BUSINESS IMPACT
Built for AI at scale

SHIFT 2 - Monolithic Platforms → Composable Architecture

CHALLENGE
Rigid systems slow AI deployment

MODERN APPROACH
API-driven services accelerate integration

BUSINESS IMPACT
Governance-ready architecture

SHIFT 3 - Reactive IT Operations → Predictive Intelligence

CHALLENGE
Issues are identified after impact occurs

MODERN APPROACH
AIOps identifies risk before impact

BUSINESS IMPACT
Reduced downtime and lower costs

AI-NATIVE ENTERPRISE FORMULA

Agentic Workflows + Composable Architecture + Predictive Intelligence = **AI AT SCALE**

Is Your Architecture Ready for AI at Scale?

Take the AI Readiness Assessment with **Emergys**
